

multiraster PRO A

multiraster PRO A

- Suitable for heavy loads
- Copro certified class A

multiraster PRO A

Material: HDPE from recycled plastic (environmentally friendly and UV-resistant)

Dimensions: Approx. 585 x 390 x 51 mm (L x W x H)

Surface area per grid: Approximately 0.228 m²

Number of grids per m²: 4.38

Weight per grid: Approximately 1300 gram

Maximum load: > 300 Tonnes per m² (unfilled)

Colours: Black (green and grey on request)*

Packing: Europallet 80 x 120 x 240 cm

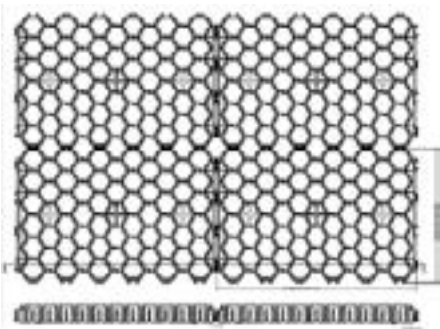

Number per pallet: 160 grids (40 layers @ 4 each)

M² per pallet: Approximately 36.5 m²

Layers per pallet: 40

Grids per pallet: 4

M² per layer: Approximately 0.913 m²

* Please note, products made from recycled materials can have variations in color and size.

Specifications, Multi-raster pro A®

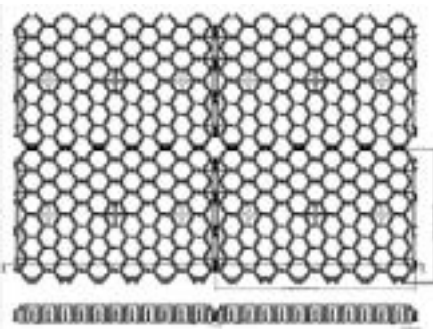

- Paving grids in HDPE recycled materials with cloverleaf chambers
- Top side equipped with anti-slip surface
- Equipped with fixed connection on four sides
- Option to equip with marking studs and anchoring
- One m² multiraster is approximately 0.9 m² open surface (9/10 of the surface is uncovered)
- Content of surface to be filled per m² is approximately 0.04 m³ (e.g. aggregate)
- Maximum load unfilled grids is > 300 tonnes per m²
- Dimensions per grid approximately 585 x 390 x 51 mm (L x W x H)
- Weight approximately 6 kg per m²
- Standard colours: Black (green and grey on request)
- Fully recyclable
- Suitable for heavy loads, usage class A COPRO certified

Parking marker

- Size: 95 x 60 mm (2)
- Material: PP (Polypropelene)
- Color: White (Glow in the Dark is possible too)
- Note: The slots at the bottom of the cap fix the marker into place. It will not break when circular motion is applied.
- There are four click-connections at the bottom to finalize fixation.

Plastic grass/gravel grids may not be laid locked up
